

**UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
Washington, D.C. 20549**

**FORM 10-Q**

**QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the quarterly period ended **June 30, 2019**

**TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission File Number: **001-38320**

**GIGCAPITAL, INC.**

(Exact name of registrant as specified in its charter)

<b>Delaware</b> (State or other jurisdiction of incorporation or organization)  2479 E. Bayshore Rd., Suite 200 Palo Alto, CA (Address of principal executive offices)	81-4838205 (I.R.S. Employer Identification Number)  94303 (Zip Code)
--	---

Registrant's telephone number, including area code: **(650) 276-7040**

(Former name or former address, if changed since last report):N/A

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by checkmark whether the registrant has submitted electronically every Interactive Data

File required to be submitted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files) Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company, or an emerging growth company. See definitions of "large accelerated filer", "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act:

Large accelerated filer	<input type="checkbox"/>	Accelerated filer	<input checked="" type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	Smaller reporting company	<input checked="" type="checkbox"/>
		Emerging growth company	<input checked="" type="checkbox"/>

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbols	Name of each exchange on which registered
Common Stock, par value \$0.0001 per share	GIG	The NYSE Stock Market LLC
Warrants to receive one share of Common Stock	GIG.WS	The NYSE Stock Market LLC
Right to receive one-tenth of one share of Common Stock	GIGr	The NYSE Stock Market LLC
Units, each consisting of one share of Common Stock, one right and three-fourths of one warrant	GIG.U	The NYSE Stock Market LLC

As of June 30, 2019, there were 11,636,542 shares of the Company's common stock issued and outstanding.

**1. DESCRIPTION OF ORGANIZATION AND BUSINESS OPERATIONS**

***Organization and General***

GigCapital, Inc. (the “Company”) was incorporated in Delaware on October 9, 2017. The Company was formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses (the “Business Combination”). The Company is an “emerging growth company,” as defined in Section 2(a) of the Securities Act of 1933, as amended (the “Securities Act”) as modified by the Jumpstart Our Business Startups Act of 2012 (the “JOBS Act”).

As of June 30, 2019, the Company had not yet commenced any operations. All activity for the period from October 9, 2017 (date of inception) through June 30, 2019 relates to the Company’s formation and the initial public offering (the “Offering”), which is described below (Note 3), and identifying a target initial Business Combination. The Company will not generate any operating revenues until after completion of the Business Combination, at the earliest. The Company will generate non-operating income in the form of interest income on cash from the proceeds derived from the Offering. The Company has selected September 30 as its fiscal year end.

On December 7, 2017, the initial registration statement on Form S-1, as amended, filed in connection with the Offering was declared effective. On December 8, 2017, a subsequent registration statement on Form S-1 filed by the Company pursuant to Section 462(b) of the Securities Act, and also in connection with the Offering, was declared effective. The Company entered into an underwriting agreement on December 7, 2017 to conduct the Offering, the initial closing of which was consummated on December 12, 2017 with the delivery of 12,500,000 units (the “Units”). The Units sold in the initial closing of the Offering consisted of the securities described in Note 3. The initial closing of the Offering generated gross proceeds of \$125,000,000.

Simultaneously with the initial closing of the Offering, the Company consummated the initial closing of a private placement sale (the “Private Placement”) of 489,500 units (the “Private Placement Units”), at a price of \$10.00 per unit. Those units are held by the Company’s sponsor, GigAcquisitions, LLC, a Delaware limited liability company (the “Sponsor”) and three additional investors (together with the Sponsor, the “Founders”). The Private Placement Units consisted of the securities described in Note 4. The initial closing of the Private Placement generated gross proceeds of \$4,895,000.

Following the initial closing of the Offering, net proceeds in the amount of \$122,500,000 from the sale of the Units and proceeds in the amount of \$2,500,000 from the sale of Private Placement Units, for a total of \$125,000,000, were placed in the trust account (“Trust Account”) which is described further below.

On January 9, 2018, in connection with the underwriters’ exercise in full of their option to purchase an additional 1,875,000 additional Units solely to cover over-allotments, if any (the “over-allotment option”), the Company consummated the sale of an additional 1,875,000 Units at \$10.00 per unit. The Units sold in the second closing of the Offering also consisted of the securities described in Note 3. The second closing of the Offering generated gross proceeds of \$18,750,000.

Simultaneously with the closing of the sale of the additional Units, the Company consummated a second closing of the Private Placement, resulting in the sale of an additional 8,756 Private Placement Units at \$10.00 per unit to the Founders. The second closing of the Private Placement Units also consisted of the securities described in Note 4. The second closing of the Private Placement generated gross proceeds of \$87,560.

Following the second closing of the Offering, net proceeds in the amount of \$18,662,440 and proceeds in the amount of \$87,560 from the second closing of the Private Placement, for a total of \$18,750,000, were placed in the Trust Account.

Transaction costs amounted to \$3,252,059, consisting of \$2,587,560 of underwriting fees and \$664,499 of the Offering costs. The Company’s remaining cash after payment of the Offering costs will be held outside of the Trust Account for working capital purposes.

## Recent Developments

### Special Meeting of the Company's Stockholders for Extension

On June 5, 2019, GigCapital, Inc. (the "Company") filed with the Secretary of State of the State of Delaware ("DE SOS") a Certificate of Amendment (the "Extension Amendment") to the Company's Amended and Restated Certificate of Incorporation, pursuant to which the date by which the Company must consummate its initial Business Combination with Kaleyra S.p.A. ("Kaleyra"), was extended from June 12, 2019 to December 12, 2019 (such extension, the "Second Extension"). The Extension Amendment was approved by the Company's stockholders at the Special Meeting and became effective upon the filing thereof with the DE SOS.

The results of voting on the proposals submitted to a vote of the Company's stockholders at the Special Meeting, held on June 5, 2019, were as follows:

#### Proposal No. 1

The Extension Amendment was approved as follows:

For	Against	Abstain	Broker Non-Votes
17,529,028	126,876	20,000	0

In connection with the Second Extension and the Extension Amendment, stockholders elected to redeem 6,825,464 shares of the Company's common stock, par value \$0.0001 per share ("Common Stock"), which represents approximately 47.5% of the shares that were part of the units that were sold in the Company's initial public offering. Following such redemptions, approximately \$77.8 million will remain in the trust account and 11,636,542 shares of Common Stock will remain issued and outstanding.

#### Extension Amendment Contributions

In conjunction with the approval of the Second Extension, the Founders agreed to contribute to the Company as a loan \$240,000 for each calendar month, or portion thereof, that is needed by GigCapital to complete the Business Combination with Kaleyra (each, a "Contribution"). The Contributions were conditional upon the implementation of the Second Extension. The Contributions do not bear interest and are repayable by GigCapital upon consummation of the Business Combination with Kaleyra. The Sponsor will have the sole discretion to determine whether to continue extending for additional months until the Extended Date, and if the Sponsor determines not to continue extending for additional months, the obligation of the Sponsor and Founders to make additional Contributions will terminate and GigCapital will dissolve and liquidate in accordance with its Charter.

On June 10, 2019, the Company issued four non-convertible unsecured promissory notes (each, a "Second Extension Note" and collectively the "Second Extension Notes") in the aggregate principal amount of \$240,000 to the Founders. The Founders deposited the funds into the Trust Account.

On June 10, 2019, the Company issued an additional four convertible unsecured promissory notes (each, a "Working Capital Note" and collectively the "Working Capital Notes") in the aggregate principal amount of \$91,667 to the Founders. The Working Capital Notes were issued to provide the Company with additional working capital during the Second Extension and will not be deposited into the Trust Account. The Company issued the Working Capital Notes in consideration for loans from the payees to fund the Company's working capital requirements. The convertible notes are convertible at the payee's election upon the consummation of the Business Combination. Upon such election, the convertible notes will convert, at a price of \$10.00 per unit, into units identical to the private placement units issued in connection with the Company's initial public offering, except that the private placement warrants which comprise a part of the private placement units issued to the non-Sponsor Founders, so long as they are held by the non-Sponsor Founders, or any of their related persons under FINRA rules, will expire five years from the effective date of the Company's registration statement, or earlier upon the Company's liquidation.

#### Initial extension

The Company's initial public offering IPO prospectus and charter provided that the Company initially had until March 12, 2019 (the date which was 15 months after the consummation of the IPO) to complete a business combination. The Company's IPO prospectus and charter also provided that the Company could extend such 15 months period an additional 3 months if the Founders deposited into the Company's trust account established following the IPO an amount equal to the aggregate total of \$0.10 per public share sold in the IPO, for a total deposit of \$1,437,500.

As discussed in Note 8 below, on March 6, 2019, the Company issued four unsecured promissory notes in the aggregate principal amount of \$1,437,500, representing \$0.10 per public share. These notes are currently held by Sponsor and the three other Founders. The aggregate funds have been deposited into the trust account, and as a result, the period of time the Company has to consummate a business combination and the date for cessation of operations of the Company if the Company has not completed a business combination has been extended from March 12, 2019 to June 12, 2019 (“Initial Extension”). The terms of the trust agreement did not require an amendment of the charter in order to accomplish the Initial Extension.

#### ***The Trust Account***

The funds in the Trust Account have been invested only in U.S. government treasury bills with a maturity of one hundred and eighty (180) days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act of 1940 which invest only in direct U.S. government obligations. Funds will remain in the Trust Account until the earlier of (i) the consummation of the Business Combination or (ii) the distribution of the Trust Account as described below. The remaining proceeds from the Offering outside the Trust Account may be used to pay for business, legal and accounting due diligence expenses on acquisition targets and continuing general and administrative expenses.

The Company’s Amended and Restated Certificate of Incorporation provides that, other than the withdrawal of interest to pay taxes, if any, none of the funds held in the Trust Account will be released until the earlier of: (i) the completion of the Business Combination; (ii) the redemption of the remaining outstanding shares of common stock included in the units sold in the Offering (the “public shares”) if the Company is unable to complete the Business Combination by December 12, 2019; or (iii) pursuant to an authorized redemption of the public shares in connection with the stockholder vote to amend the Company’s Amended and Restated Certificate of Incorporation to modify the substance or timing of the Company’s obligation to redeem the remaining public shares if it does not complete the Kaleyra Business Combination by December 12, 2019. If the Company does not complete a Business Combination within this extended period of time, it shall (i) cease all operations except for the purposes of winding up; (ii) as promptly as reasonably possible, but not more than ten business days thereafter, redeem the public shares of common stock for a per share pro rata portion of the Trust Account, including interest, but less taxes payable (less up to \$100,000 of such net interest to pay dissolution expenses); and (iii) as promptly as possible following such redemption, dissolve and liquidate the balance of the Company’s net assets to its creditors and remaining stockholders, as part of its plan of dissolution and liquidation.

#### ***Business Combination***

On February 22, 2019, the Company entered into a stock purchase agreement (the “Stock Purchase Agreement”) with Kaleyra, Shareholder Representative Services LLC, (the “Seller Representative”) as representative for the of the ordinary shares of the Kaleyra immediately prior to the closing (the “Closing” and the date on which the Closing occurs, the “Closing Date”) of the transaction, and all of the stockholders of all of the Kaleyra stock (collectively, such Kaleyra stockholders, the “Sellers”), for the purpose of the Company acquiring all of the shares of the Kaleyra stock (the “Kaleyra Business Combination”). Kaleyra is a communications platform as a service (“CPaaS”) provider. The parties expect to close the proposed transaction in the second half of 2019. The transaction is subject to customary closing conditions, including regulatory and stockholder approval.

The Company’s management has broad discretion with respect to the specific application of the net proceeds of the Offering, although substantially all of the net proceeds of the Offering are intended to be generally applied toward consummating a Business Combination with (or acquisition of) a Target Business. As used herein, “Target Business” must be with one or more target businesses that together have a fair market value equal to at least 80% of the balance in the Trust Account (less taxes payable on interest earned) at the time the Company signs a definitive agreement in connection with the Business Combination. There is no assurance that the Company will be able to successfully effect a Business Combination.

Effective as of the Closing, the Company intends to change its name to Kaleyra, Inc. and to apply to list the Transaction Securities (as defined below) on the New York Stock Exchange (“NYSE”) under the symbol “KLR”. The Company also intends to change its fiscal year end to December 31st from its current fiscal year end of September 30th upon the consummation of the transaction, and intends for the change to first be effective for its fiscal year ended December 31, 2019.

*Consideration*

Pursuant to the terms of the Stock Purchase Agreement, the Sellers will sell, transfer, assign, convey and deliver to the Company all of the Kaleyra stock. In accordance with, and subject to the Purchase Agreement, each Seller will be entitled to receive his, her or its share, as specified in the Purchase Agreement, of the aggregate closing consideration to be paid to the Sellers at the Closing (the "Aggregate Closing Consideration"), in addition to a contingent right to receive the Earnout Shares (as defined and further described below under the heading "Earnout Shares"). The Aggregate Closing Consideration shall consist of a combination of cash ("Cash Consideration"), Company Common Stock ("Closing Share Consideration") and unsecured convertible promissory notes (the "Notes") for a specified principal amount (the "Note Principal Amount"). Two of the Sellers will receive their portion of the Aggregate Closing Consideration in the form of a combination of Closing Share Consideration, Cash Consideration and Notes. Each of the other Sellers will receive his, her or its portion of the Aggregate Closing Consideration solely in the form of Closing Share Consideration. The aggregate value of each component of the Aggregate Closing Consideration will be determined by the percentage of the Offering Shares (as defined in the Certificate of Incorporation) outstanding as of February 22, 2019 that have been redeemed prior to the Closing (the "Redemption Percentage") pursuant to the Redemption Rights (as defined in the Certificate of Incorporation) and Article IX of the Certificate of Incorporation. The Stock Purchase Agreement apportions each component of the Aggregate Closing Consideration according to five fixed ranges of possible Redemption Percentages (the "Redemption Ranges"). The Aggregate Closing Consideration for each such Redemption Range, by component of the Aggregate Closing Consideration, is as follows:

<b>Cash Consideration</b>	<b>Closing Share Consideration (in shares of the Company's Common Stock)</b>	<b>Note Principal Amount</b>
<b>Redemption Percentage is equal to or greater than 87.5%</b>		
\$0	10,181,819	\$15,000,000
<b>Redemption Percentage is greater than 75.0% but less than 87.5%</b>		
\$3,750,000	9,781,819	\$11,250,000
<b>Redemption Percentage is greater than 62.5% but less than or equal to 75.0%</b>		
\$7,500,000	9,381,819	\$7,500,000
<b>Redemption Percentage is equal to or greater than 50.0% but less than or equal to 62.5%</b>		
\$11,250,000	8,999,319	\$3,750,000
<b>Redemption Percentage is less than 50.0%</b>		
\$15,000,000	8,616,819	\$0

The aggregate amount of Closing Share Consideration, and each of the Closing Share Consideration amounts listed above, are subject to adjustments at Closing as specified in the February 26 Form 8-K.

*Notes*

Interest on the Notes will accrue at a fixed interest rate equal to the one-year U.S. dollar LIBOR interest rate published in The Wall Street Journal on the Closing Date, plus a margin of one percent (1%) per annum. Interest will be due and payable annually on each of (1) the date which is the twelve (12) month anniversary of the Closing Date and (2) on the date which is the twenty-four (24) month anniversary of the Closing Date. All interest shall be computed on the basis of a 365-day year and the actual number of days elapsed.

Fifty percent (50%) of the outstanding principal balance of the Notes will be due and payable on the fifteen (15) month anniversary of the Closing Date. The remaining outstanding principal balance of the Notes plus all accrued and unpaid interest and fees due under the Notes will be due and payable in full on the twenty-four (24) month anniversary of the Closing Date.

In the event that the Company receives, at any time while principal on the Notes remains outstanding, cash proceeds of an equity financing (the "Financing") in an amount not less than \$50,000,000.00 (the "Financing Proceeds"), fifty percent (50%) of the outstanding principal balance of the Notes will be due and payable no later than ten (10) business days after the Company receives such Financing Proceeds. In the event of a Financing where at any time the Company receives cash proceeds of such Financing in an amount not less than \$75,000,000.00 (the "Payoff Financing Proceeds"), one hundred percent (100%) of the remaining outstanding principal balance of the Notes, plus all accrued and unpaid interest and fees due under the Notes will be due and payable no later than ten (10) business days after the Company receives such Payoff Financing Proceeds. The date which is the earlier of (a) the twenty-four (24) month anniversary of the Closing Date, or (b) the date payment is received from Payoff Financing Proceeds, is the "Maturity Date."

In the event that the Notes are not paid in full on or before the applicable Maturity Date, then at any time after the sixtieth(60th) business day after the Maturity Date, assuming payment in full has not been made prior to such date, the outstanding principal amount of the Notes, together with all accrued but unpaid interest on the Notes, may be converted into shares of Company Common Stock, in part or in whole, at the option of the holder of the Notes by providing written notice at least three (3) business days prior to the date of conversion. A conversion of any portion of the Note into shares of Company Common Stock will be effected at a conversion price equal to the Current Market Price as of the date of such conversion (the "Conversion Price"). The term "Current Market Price" means, generally, the average VWAP for the twenty (20) consecutive trading days ending on the date that is five (5) trading days prior to the date of conversion. The term "VWAP" means, for any trading day, the volume weighted average trading price of the Company Common Stock for such trading day on the NYSE (or if the Company Common Stock is no longer traded on the NYSE, on such other exchange as the Company Common Stock are then traded).

#### *Earnout Shares*

In addition to the right to receive the Aggregate Closing Consideration, each Seller will have the contingent right to receive additional shares of Company Common Stock upon the achievement of the following revenue and adjusted earnings before interest, income taxes, depreciation, and amortization, ("EBITDA") milestones (the "Earnout Shares" and together with the Closing Share Consideration, the "Transaction Securities"):

(1) If the pro forma revenue and pro forma adjusted EBITDA of the post-combination Company and its subsidiaries for the 2019 fiscal year exceeds the pro forma revenue and pro forma adjusted EBITDA of Kaleyra and its subsidiaries for the 2018 fiscal year by thirty percent (30%) and forty-five percent (45%) respectively, then the aggregate number of Earnout Shares which the Sellers will be entitled to receive (the "2019 Earnout Shares") is as follows, determined based on the applicable Redemption Range:

<b>Redemption Percentage</b>	<b>Less than 50.00%</b>	<b>Equal to or greater than 50.00% but less than or equal to 62.50%</b>	<b>Greater than 62.50% but less than or equal to 75.00%</b>	<b>Greater than 75.00% but less than 87.50%</b>	<b>Equal to or greater than 87.50%</b>
Aggregate 2019 Earnout Shares	2,146,133	1,954,892	1,763,633	1,563,642	1,363,633

(2) If the revenue and adjusted EBITDA of the post-combination Company and its subsidiaries for the 2020 fiscal year exceeds the pro forma revenue and pro forma adjusted EBITDA of the Company and its subsidiaries for the 2019 fiscal year by thirty percent (30%) and forty-five percent (45%) respectively, then the number of Earnout Shares which the Sellers will be entitled to receive (the "2020 Earnout Shares") is as follows, determined based on the applicable Redemption Range:

<b>Redemption Percentage</b>	<b>Less than 50.00%</b>	<b>Equal to or greater than 50.00% but less than or equal to 62.50%</b>	<b>Greater than 62.50% but less than or equal to 75.00%</b>	<b>Greater than 75.00% but less than 87.50%</b>	<b>Equal to or greater than 87.50%</b>
Aggregate 2020 Earnout Shares	2,146,139	1,954,881	1,763,639	1,563,631	1,363,639

Notwithstanding the above, to the extent that the requisite level of adjusted EBITDA for a fiscal year for the issuance of Earnout Shares is achieved but the requisite level of revenue is not so achieved, as long as the revenue for such fiscal year is at least eighty percent (80%) of the requisite level of revenue for the issuance of Earnout Shares, then the aggregate 2019 Earnout Shares or 2020 Earnout Shares, as applicable, will be deemed earned and issuable, but in an amount reduced by 0.5% for every 1.0% revenue for such fiscal year is below the revenue target for such fiscal year (the "Earnout Reduction").

For the purposes of determining whether Earnout Shares will be issued, adjusted EBITDA is defined as of any date of calculation, as the consolidated earnings of a party and its subsidiaries, before finance income and finance cost (including bank charges), tax, depreciation and amortization calculated from the audited consolidated financial statements of such party and its subsidiaries (prepared in accordance with GAAP), plus (i) Expenses (as defined below), (ii) without duplication of clause (i), severance or change of control payments, (iii) any expenses related to company restructuring, (iv) any compensation expenses relating to stock options, restricted stock units, restricted stock or similar equity interests as may be issued by the Company or any of its subsidiaries to employees of the Company or any of its subsidiaries and (v) any provision for the write down of assets. A party's adjusted EBITDA for any fiscal year party is calculated on a pro forma basis to include any subsidiaries acquired by such party during such fiscal year.

Whether Earnout Shares are to be issued will be determined as soon as practicable (but in any event within fifteen (15) days) after the completion of the audited consolidated financial statements of the Company as filed with the SEC. To the extent that the Seller Representative disagrees with a determination whether Earnout Shares are to be issued, the Purchase Agreement provides for a customary process by which the Seller Representative and the Company shall resolve any such disagreement before an independent nationally recognized accounting firm.

If during the period when Earnout Shares can be earned (the "Earnout Period"), there is a liquidation, dissolution or winding up, or bankruptcy of the Company, or change of control of the Company where the value of the aggregate consideration received by each holder of Company Common Stock with respect to each share of Company Common Stock held by such holder equals at least \$10.00 per share of Company Common Stock (subject to appropriate adjustments for stock splits, stock dividends, combinations and other recapitalizations) (each an "Acceleration Event"), then any Earnout Shares that have not been issued by the Company (whether or not previously earned and whether or not any revenue or adjusted EBITDA targets or thresholds have been achieved) shall be deemed earned and due by the Company to the Sellers.

Any dividends or distributions declared with respect to Company Common Stock during the Earnout Period shall be set aside and not paid until the 2019 Earnout Shares and 2020 Earnout Shares have been issued to the Sellers or, if either or both the 2019 Earnout Shares and the 2020 Earnout Shares are not earned and issued, then all such dividends or distributions declared during the Earnout Period shall be forfeited.

Certain holders of shares of Company Common Stock have agreed that a portion of their shares of Company Common Stock will be forfeited in the event that either the 2019 Earnout Shares or the 2020 Earnout Shares are not issued in full, as further described below under the heading "Founder Shares Agreement".

#### *Lock-Up*

Subject to certain exceptions (including the sale of Company Common Stock or Earnout Shares to satisfy certain taxes that may be payable by certain Sellers upon the receipt of Company Common Stock), each Seller agrees that such Seller shall not transfer any Company Common Stock issued to such Seller as part of the Closing Share Consideration or any Earnout Shares that may have been issued to such Seller until the earlier of (i) the first anniversary of the Closing Date or (ii) the date, following the Closing Date, on which (x) the last sale price of Company Common Stock equals or exceeds US\$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any twenty (20) trading days within any thirty (30) trading day period commencing at least one hundred fifty (150) days after the Closing Date or (y) the Company's completion of a liquidation, merger, stock exchange or other similar transaction that results in all of the Company's stockholders having the right to exchange their shares of Company Common Stock for cash, securities or other property (such earliest date being the "Lock-Up Termination Date").

#### *Restricted Stock Units*

The Company has agreed to adopt an equity incentive plan that it will submit to its stockholders for approval. So long as such equity incentive plan is adopted and approved, the Company has agreed to issue to certain employees of Kaleyra or its subsidiaries 1,018,181 restricted stock units that would vest at the Lock-Up Termination Date, 136,367 restricted stock units that would vest upon the final determination, if any, that the 2019 Earnout Shares are earned and issuable, and 136,361 restricted stock units that would vest upon the final determination, if any, that the 2020 Earnout Shares are earned and issuable.

#### *Expense Reimbursement*

If the Kalyera Business Combination is not consummated, each party shall bear its respective legal, accountants, and financial advisory fees and other expenses incurred with respect to the Purchase Agreement and the Kalyera Business Combination (collectively "Expenses"). If the Kalyera Business Combination is consummated, the Company shall pay, or cause to be paid, all Expenses at or after the Closing, including the out-of-pocket costs and expenses incurred by Kaleyra and its subsidiaries in connection with the Purchase Agreement and the Kalyera Business Combination (including any fees and expenses of representatives of Kaleyra and its subsidiaries).

#### *Founder Shares Agreement*

The Founders have entered into a Founder Shares Agreement with the Company, Kaleyra and the Seller Representative on February 22, 2019 (the "Founder Shares Agreement") with regard to their shares of Company Common Stock held by each of them (the "Founder Shares"),

Pursuant to the terms of the Founder Shares Agreement, each Founder agreed that a portion of the Founder Shares will be forfeited in the event that either the 2019 Earnout Shares or the 2020 Earnout Shares are not issued in full (such Founder Shares subject to risk of forfeiture, the "Founder Earnout Shares"). The aggregate number of Founder Earnout Shares will be determined as follows, based on the applicable Redemption Range:

Redemption Percentage	Less than 50.00%	Equal to or greater than 50.00% but less than or equal to 62.50%	Greater than 62.50% but less than or equal to 75.00%	Greater than 75.00% but less than 87.50%	Equal to or greater than 87.50%
Aggregate Founder Earnout Shares	251,686	629,220	1,090,646	1,552,074	2,013,504

The dates and amount of the lapse of the risk of forfeiture of the Founder Earnout Shares are as follows:

- The lapse of the risk of forfeiture of 50% of the Founder Earnout Shares (the "2019 Founder Earnout Shares") will irrevocably occur if the 2019 Earnout Shares are issued by the Company; provided, that the Earnout Reduction shall also apply to the 2019 Founder Earnout Shares (provided that the 2019 Founder Earnout Shares shall be finally forfeited to the Company without consideration if it is finally determined that the 2019 Earnout Shares are not earned and issuable);
- The lapse of the risk of forfeiture of 50% of the Founder Earnout Shares (the "2020 Founder Earnout Shares") will irrevocably occur if the 2020 Earnout Shares are issued by the Company; provided, that the Earnout Reduction shall also apply to the 2020 Founder Earnout Shares (provided that the 2020 Founder Earnout Shares shall be finally forfeited to the Company without consideration if it is finally determined that the 2020 Earnout Shares are not earned an issuable); and
- For any Founder Earnout Shares for which the risk of forfeiture has not yet lapsed, or been forfeited, pursuant to the provisions above, the lapse of the risk of forfeiture shall irrevocably occur if and when any Earnout Shares become earned and issuable under the Purchase Agreement due to an Acceleration Event.

In addition, each Founder has irrevocably and unconditionally agreed that, prior to the lapse of the risk of forfeiture of the Founder Earnout Shares, such Founder shall not transfer all or any portion of such Founder Earnout Shares, other than to a permitted transferee (as described in a letter agreement, dated December 7, 2017, between the Company and Founders) who enters into a written agreement for the benefit of the parties to the Founder Shares Agreement pursuant to which such permitted transferee agrees to be bound by the provisions of the Founder Shares Agreement provided that, following such transfer, such Founder continues to beneficially own such transferred Founder Shares for all purposes, including voting rights.

If the Company holds a stockholder vote or there is a tender offer for shares in connection with a Business Combination, a public stockholder will have the right to redeem its shares for an amount in cash equal to its pro rata share of the aggregate amount then on deposit in the Trust Account as of two business days prior to the consummation of the initial Business Combination, including interest but less taxes payable. As a result, such shares of common stock have been recorded at their redemption amount and classified as temporary equity.

The amount held in the Trust Account as of June 30, 2019 was \$77,838,232, which represents cash and short-term investments of \$143,750,000 from the sale of 14,375,000 Units at \$10.00 per unit, \$3,919,676 of interest income earned on these holdings, and \$1,437,500 issuance of promissory notes as part of the Initial Extension, and \$240,000 in Extension Contributions, less \$70,180,359 in redemptions and \$1,328,585 withdrawn from the interest earned on the Trust Account to pay tax obligations.

Additionally, there was \$155,566 of interest accrued, but not yet credited to the Trust Account, which was recorded on the condensed balance sheets in Interest receivable on cash and marketable securities held in Trust Account as of June 30, 2019.

The amount held in the Trust Account as of September 30, 2018 was \$144,964,309, which represents cash and short-term investments of \$143,750,000 from the sale of 14,375,000 Units at \$10.00 per unit and \$1,593,432 of interest income earned on these holdings, less \$379,123 withdrawn from the interest earned on the Trust Account to pay federal and state income tax obligations.

Additionally, there was \$221,157 of interest accrued, but not yet credited to the Trust Account, which was recorded on the balance sheet in Interest receivable on cash and marketable securities held in the Trust Account as of September 30, 2018.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### *Basis of Presentation*

The accompanying unaudited condensed interim financial statements of the Company are presented in conformity with accounting principles generally accepted in the United States of America ("GAAP") pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC") and reflect all adjustments, consisting only of normal recurring adjustments, which are, in the opinion of management, necessary for a fair presentation of the financial position as of June 30, 2019, and the results of operations and cash flows for the periods presented. Certain information and disclosures normally included in financial statements prepared in accordance with GAAP have been omitted pursuant to such rules and regulations.

The accompanying unaudited condensed financial statements should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended September 30, 2018 as filed with the SEC on December 6, 2018, which contains the audited financial statements and notes thereto. The financial information as of September 30, 2018 is derived from the audited financial statements presented in the Company's Annual Report on Form 10-K for the year ended September 30, 2018. The interim results for the three and nine months ended June 30, 2019 are not necessarily indicative of the results to be expected for the year ending September 30, 2019 or for any future interim periods.

The financial statements of the Company have been prepared on a going concern basis, which contemplates the realization of assets and the discharge of liabilities in the normal course of business. As of June 30, 2019, the Company had \$329,245 in cash and a working capital deficit of \$3,859,446. Further, the Company expects to continue to incur significant costs in pursuit of its acquisition plans. These conditions raise substantial doubt about the Company's ability to continue as a going concern. The Company plans to address this uncertainty by raising additional capital. There is no assurance that the Company's plans to raise capital or to consummate a Business Combination will be successful or successful within the target business acquisition period. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

### *Emerging Growth Company*

Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act of 1934) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when an accounting standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, will adopt the new or revised accounting standard at the time private companies adopt the new or revised standard.

### *Use of Estimates*

The preparation of financial statements in conformity with GAAP requires the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

### *Concentration of Credit Risk*

Financial instruments that potentially subject the Company to concentrations of credit risk consist of cash and marketable securities accounts in financial institutions, which at times, may exceed federally insured limits. The Company has not experienced losses on these accounts and management believes the Company is not exposed to significant risks on such accounts.

### *Cash*

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. The Company maintains cash balances that at times may be uninsured or in deposit accounts that exceed Federal Deposit Insurance Corporation limits. The Company maintains its cash deposits with a major financial institution.

### *Cash and Marketable Securities Held in Trust Account*

As of June 30, 2019, the assets held in the Trust Account were invested in a money market fund.

### ***Common Stock Subject to Possible Redemption***

Common stock subject to mandatory redemption (if any) is classified as a liability instrument and is measured at fair value. Conditionally redeemable common stock (including common stock that features redemption rights that are either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within the Company's control) is classified as temporary equity. At all other times, common stock is classified as stockholders' equity. The Company's common stock features certain redemption rights that are considered to be outside of the Company's control and subject to occurrence of uncertain future events. Accordingly, as of June 30, 2019 and September 30, 2018, common stock subject to possible redemption is presented as temporary equity, outside of the stockholders' equity section of the Company's condensed balance sheets.

### ***Fair Value of Financial Instruments***

The fair value of the Company's assets and liabilities approximates the carrying amounts represented in the condensed balance sheets primarily due to their short-term nature.

### ***Offering Costs***

Offering costs in the amount of \$3,252,059 consist of legal, accounting, underwriting fees and other costs incurred through the balance sheet date that are directly related to the Offering. Offering costs were charged to stockholders' equity upon the completion of the Offering.

### ***Stock-based Compensation***

For restricted stock awards granted to employees and directors of the Company, the related stock-based compensation will be based on the fair value of the common stock on the grant date. For restricted stock awards granted to non-employees of the Company, the related stock-based compensation will be based on the fair value of the common stock on the date the shares vest, or are no longer subject to forfeiture upon an event that is not probable to occur.

The shares underlying the Company's restricted stock awards are subject to forfeiture if the Business Combination is not completed or if these individuals resign or are terminated for cause prior to the completion of the Business Combination. Therefore, the related stock-based compensation will be recognized upon the completion of a Business Combination, unless the related shares are forfeited prior to a Business Combination occurring.

### ***Net Loss Per Common Share***

Net loss per common share is computed by dividing net loss by the weighted-average number of common shares outstanding for the period. The Company applies the two-class method in calculating the net loss per common share. Shares of common stock subject to possible redemption as of June 30, 2019 and 2018, have been excluded from the calculation of the basic net loss per share since such shares, if redeemed, only participate in their pro rata share of the Trust Account earnings. The Company has not considered the effect of 1) warrants sold in the Offering and Private Placement to purchase an aggregate of 11,154,942 shares of common stock since the exercise of the warrants is contingent upon future events, as of March 31, 2019 and 2018, 2) rights sold in the Offering and Private Placement that convert into 1,487,326 shares of common stock since the conversion of the rights is contingent upon future events, as of June 30, 2019 and 2018 and (3) the 60,000 shares of common stock underlying restricted stock awards that are still subject to forfeiture as of June 30, 2019 and 2018. Since the Company was in an adjusted net loss position during the periods presented within, diluted net loss per common share is the same as basic net loss per common share for all periods presented.

### Reconciliation of Net Loss Per Common Share

In accordance with the two-class method, the Company's net loss is adjusted to remove net income that is attributable to common stock subject to possible redemption, as these shares only participate in the income of the Trust Account and not the losses of the Company. Accordingly, net loss per common share, basic and diluted, is calculated as follows:

	For the Three Months Ended June 30,		For the Nine Months Ended June 30,	Period from October 9, 2017 (Date of Inception) through June 30,
	2019	2018	2019	2018
Net income (loss)	\$ (114,030)	\$ 103,999	\$ (525,405)	\$ (19,949)
Less: net income attributable to common stock subject to redemption	(314,488)	(307,146)	(1,002,351)	(595,835)
Adjusted net loss	\$ (428,518)	\$ (203,147)	\$ (1,527,756)	\$ (615,784)
Weighted-average common shares outstanding, basic and diluted	4,238,180	4,033,329	4,153,252	4,044,483
Net loss per share common share, basic and diluted	\$ (0.10)	\$ (0.05)	\$ (0.37)	\$ (0.15)

### Income Taxes

The Company follows the asset and liability method of accounting for income taxes. Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that included the enactment date. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

The Company prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. There were no unrecognized tax benefits as of June 30, 2019 or September 30, 2018. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. No amounts were accrued for the payment of interest and penalties as of June 30, 2019 or September 30, 2018. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position. The Company is subject to income tax examinations by major taxing authorities since inception.

### Recent Accounting Pronouncements

The Company does not believe that any recently issued, but not yet effective, accounting pronouncements, if currently adopted, would have a material effect on the Company's condensed financial statements.

### 3. OFFERING

On December 12, 2017, the Company completed the initial closing of the Offering whereby the Company sold 12,500,000 Units at a price of \$10.00 per Unit. On January 9, 2018, the Company completed the second closing of the Offering with the exercise of the over-allotment option with the consummation of the sale of an additional 1,875,000 Units at a price of \$10.00 per Unit. Each Unit consists of one share of the Company's common stock, \$0.0001 par value, three-fourths (3/4) of one warrant to purchase one share of common stock (the "Warrants"), and one right to receive one-tenth (1/10) of one share of common stock upon consummation of the Business Combination (the "Rights"). Warrants will only be exercisable for whole shares at \$11.50 per share.

On January 16, 2018, the Company announced that the holders of the Company's Units may elect to separately trade the securities underlying such Units which commenced on January 17, 2018. No fractional warrants will be issued upon separation of the Units and only whole warrants will trade. Any Units not separated will continue to trade on the New York Stock Exchange under the symbol "GIG.U". Any underlying shares of common stock, warrants and rights that are separated will trade on the New York Stock Exchange under the symbols "GIG," "GIG WS" and "GIG RT," respectively.

#### 4. RELATED PARTY TRANSACTIONS

##### *Founder Shares*

During the period from October 9, 2017 (date of inception) to December 12, 2017, the Founders purchased 4,267,500 Founder Shares for \$25,000, or approximately \$0.005858 per share. In November and December 2017, the Company canceled 738,750 Founder Shares for no consideration. As a result, there are 3,528,750 Founder Shares outstanding as of June 30, 2019. The Founder Shares are identical to the common stock included in the Units sold in the Offering except that the Founder Shares are subject to certain transfer restrictions, as described in more detail below.

The Founders have agreed not to transfer, assign or sell any of their Founder Shares until the earlier of (i) one year after the completion of the initial Business Combination, or earlier if, subsequent to the initial Business Combination, the last sale price of the Company's common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after the initial Business Combination or (ii) the date on which the Company completes a liquidation, merger, stock exchange or other similar transaction after the initial Business Combination that results in all of the Company's stockholders having the right to exchange their shares of common stock for cash, securities or other property.

##### *Private Placement*

The Founders purchased from the Company an aggregate of 489,500 units at a price of \$10.00 per unit in a private placement that occurred simultaneously with the completion of the initial closing of the Offering. The Founders also purchased from the Company an aggregate of 8,756 private placement units in a private placement that occurred simultaneously with the completion of the second closing of the Offering with the exercise of the over-allotment option. Each Private Placement Unit consists of one share of the Company's common stock, \$0.0001 par value, three-fourths (3/4) of a Warrant, and one right to receive one-tenth (1/10) of a share of common stock upon the consummation of the initial Business Combination. Warrants will only be exercisable for whole shares at \$11.50 per share. Unlike the Warrants included in the Units sold in the Offering, if held by the original holder or its permitted transferees, the warrants included in the Placement Units are not redeemable by the Company and subject to certain limited exceptions, will be subject to transfer restrictions until one year following the consummation of the Business Combination. If the warrants included in the Private Placement Units are held by holders other than the initial holders or their permitted transferees, the warrants included in the Private Placement Units will be redeemable by the Company and exercisable by holders on the same basis as the Warrants included in the Offering (see above).

If the Company does not complete a Business Combination, then the proceeds from the sale of the Private Placement Units will be part of the liquidating distribution to the public stockholders.

##### *Administrative Services Agreement*

The Company agreed to pay \$20,000 a month for office space, administrative services and secretarial support to the Sponsor. Services commenced on December 8, 2017, the date the securities were first listed on the New York Stock Exchange and will terminate upon the earlier of the consummation by the Company of the Business Combination or the liquidation of the Company. For the three months ended June 30, 2019 and 2018, the Company incurred \$60,000 in fees for these services, and \$180,000 for the nine months ended June 30, 2019 and \$135,484 for the period from October 9, 2017 (date of inception) through June 30, 2018. \$20,000 and \$0 are included in accounts payable in the accompanying condensed balance sheets as of June 30, 2019 and September 30, 2018, respectively.

##### *Notes Payable to Founders*

On March 6, 2019, as part of the Initial Extension, the Company issued four unsecured promissory notes to the Founders in the aggregate principal amount of \$1,437,500, representing \$0.10 per public share. Subsequently, on June 10<sup>th</sup>, the Founders loaned the Company an additional \$636,599 in conjunction with the second extension to December 12, 2019.

## 5. COMMITMENTS AND CONTINGENCIES

### *Registration Rights*

The Company's initial stockholders are entitled to registration rights pursuant to a registration rights agreement signed on December 7, 2017 (the "Initial Registration Rights Agreement"). Under the terms of the Initial Registration Rights Agreement, the Company's initial stockholders are entitled to make up to three demands, excluding short form registration demands, that the Company register such securities for sale under the Securities Act. In addition, these stockholders have "piggy-back" registration rights to include their securities in other registration statements filed by the Company. The Company will bear the expenses incurred in connection with the filing of any such registration statements. There will be no penalties associated with delays in registering the securities under the registration rights agreement.

In connection with the Business Combination, the Company agreed to amend and restate (the "Amended Registration Rights Agreement") the Initial Registration Rights Agreement in the form attached to the Stock Purchase Agreement. Pursuant to the Amended Registration Rights Agreement, after the date of closing of the Business Combination, the Seller's Representative, Cowen II, or the holders of at least a majority-in-interest of the then-outstanding Private Shares, shares issued upon exercise of the Company's Private Placement Warrants or the conversion of the rights held by the initial stockholders, and the shares issued in the Business Combination (collectively, the "Registrable Securities") will be entitled to make up to three demands (not counting any demand by Cowen to register our securities) that the Company register the Registrable Securities. Such registration rights are subject to certain requirements and limitations as set forth in the Amended Registration Rights Agreement. In addition, and subject to certain requirements and limitations as set forth in the Amended Registration Rights Agreement, the holders of the Registrable Securities have certain "piggy-back" registration rights with respect to registration statements filed subsequent to our consummation of the Business Combination. Notwithstanding the foregoing, Cowen II, and two of the Founders who are affiliates of Cowen II, Irwin Silverberg ("Silverberg") and Jeffrey Bernstein ("Bernstein"), may not exercise their demand and "piggyback" registration rights after five and seven years, respectively, after December 7, 2017 and may not exercise their demand rights on more than one occasion. We will bear the expenses incurred in connection with the filing of any such registration statements, provided, that the Company is not required to pay for any registration if the request for such registration is subsequently withdrawn at the request of the holders of a majority of the Registrable Securities to be registered in such registration.

### *Underwriters Agreement*

The Company granted the underwriters a 45-day option to purchase up to 1,875,000 additional Units to cover any over-allotments, at the IPO price less deferred underwriting discounts and commissions. On January 9, 2018, the underwriters elected to fully exercise their over-allotment option to purchase 1,875,000 Units at a purchase price of \$10.00 per unit.

The Company paid an underwriting discount of \$0.20 per Unit offering price (or approximately \$0.0467 per unit for each Unit sold pursuant to the underwriters' over-allotment option).

### *Business Combination Marketing Agreement*

The Company engaged Cowen and Company, LLC (an affiliate of Cowen II) and Chardan Capital Markets, LLC (collectively, the "Advisors") as advisors in connection with the Business Combination pursuant to a business combination marketing agreement. Pursuant to that agreement, the Company will pay the Advisors a cash fee for such services upon the consummation of the Business Combination in an amount equal to, in the aggregate, (i) 3.5% of the gross proceeds of the Offering, excluding any proceeds from the full or partial exercise of the over-allotment option, plus (ii) 5.033333% of the gross proceeds of the Offering, if any, from the full or partial exercise of the over-allotment option (in each case, exclusive of any applicable finders' fees which might become payable).

## 6. STOCKHOLDERS' EQUITY

### *Common Stock*

The authorized Common Stock of the Company includes up to 100,000,000 shares. Holders of the Company's Common Stock are entitled to one vote for each share of Common Stock. As of June 30, 2019 and September 30, 2018, there were 4,397,901 and 4,152,789 shares of Common Stock issued and outstanding and not subject to possible redemption (of which there are 7,238,641 and 14,309,217 such shares as of June 30, 2019 and September 30, 2018).

### ***Preferred Stock***

The Company is authorized to issue 1,000,000 shares of preferred stock with such designations, voting and other rights and preferences as may be determined from time to time by the Board of Directors. As of June 30, 2019, there were no shares of preferred stock issued and outstanding.

### ***Warrants***

Warrants will only be exercisable for whole shares at \$11.50 per share. As a result, at least four Units must be purchased in order for each holder to receive shares of common stock for all of the Warrants acquired upon their exercise. Under the terms of the Warrant agreement dated December 12, 2017, the Company has agreed to use its best efforts to file a new registration statement under the Securities Act, following the completion of the Business Combination, for the registration of the shares of common stock issuable upon exercise of the Warrants included in the Units.

No fractional shares will be issued upon exercise of the Warrants. If, upon exercise of the Warrants, a holder would be entitled to receive a fractional interest in a share, the Company will, upon exercise, round down to the nearest whole number the number of shares of common stock to be issued to the Warrant holder. Each Warrant will become exercisable on the later of 30 days after the completion of the Business Combination or 12 months from the closing of the Offering and will expire five years after the completion of the Business Combination or earlier upon redemption or liquidation. However, if the Company does not complete the Business Combination on or prior to the 18-month period (or 24-month period as described above) allotted to complete the Business Combination, the Warrants will expire at the end of such period. If the Company is unable to deliver registered shares of common stock to the holder upon exercise of the Warrants during the exercise period, there will be no net cash settlement of these Warrants and the Warrants will expire worthless, unless they may be exercised on a cashless basis in the circumstances described in the Warrant agreement. Once the Warrants (excluding the warrants sold in the Private Placement Units as discussed in Note 4) become exercisable, the Company may redeem the outstanding Warrants in whole and not in part at a price of \$0.01 per Warrant upon a minimum of 30 days' prior written notice of redemption, only in the event that the last sale price of the Company's shares of common stock equals or exceeds \$18.00 per share for any 20 trading days within the 30-trading day period ending on the third trading day before the Company sends the notice of redemption to the Warrant holders.

As of June 30, 2019 and September 30, 2018, there were 11,154,942 warrants outstanding.

### ***Rights***

Each holder of a right will receive one-tenth (1/10) of one share of common stock upon consummation of a Business Combination, even if the holder of such right redeemed all shares held by it in connection with a Business Combination. No fractional shares will be issued upon conversion of the rights. No additional consideration will be required to be paid by a holder of rights in order to receive its additional shares upon consummation of a Business Combination, as the consideration related thereto has been included in the Unit purchase price paid for by investors in the Offering. If the Company enters into a definitive agreement for a Business Combination in which the Company will not be the surviving entity, the definitive agreement will provide for the holders of rights to receive the same per share consideration the holders of the common stock will receive in the transaction on an as-converted into common stock basis and each holder of a right will be required to affirmatively convert its rights in order to receive one-tenth (1/10) of one share underlying each right (without paying additional consideration) upon completion of a Business Combination. The shares issuable upon exchange of the rights will be freely tradable (except to the extent held by affiliates of the Company).

If the Company is unable to complete a Business Combination on or prior to the 24-month period as described in Note 1) allotted to complete the Business Combination and the Company liquidates the funds held in the Trust Account, holders of rights will not receive any of such funds with respect to their rights, nor will they receive any distribution from the Company's assets held outside of the Trust Account with respect to such rights, and the rights will expire worthless. Further, there are no contractual penalties for failure to deliver securities to the holders of the rights upon consummation of a Business Combination. Additionally, in no event will the Company be required to net cash settle the rights.

As of June 30, 2019 and September 30, 2018, there were 14,873,256 rights outstanding.

### Stock-based Compensation

Included in the outstanding shares of Common Stock as of June 30, 2019 and September 30, 2018 are 60,000 shares issued in consideration of future services to the Company's independent directors. These shares are subject to forfeiture if these individuals resign or are terminated for cause prior to the completion of the Business Combination.

If a Business Combination occurs and these shares have not been previously forfeited, the fair value of the common stock on the date the shares vest will be recognized as stock-based compensation when the completion of the Business Combination becomes probable.

### 7. FAIR VALUE MEASUREMENTS

The fair value of the Company's financial assets and liabilities reflects management's estimate of amounts that the Company would have received in connection with the sale of the assets or paid in connection with the transfer of the liabilities in an orderly transaction between market participants at the measurement date. In connection with measuring the fair value of its assets and liabilities, the Company seeks to maximize the use of observable inputs (market data obtained from independent sources) and to minimize the use of unobservable inputs (internal assumptions about how market participants would price assets and liabilities). The following fair value hierarchy is used to classify assets and liabilities based on the observable inputs and unobservable inputs used in order to value the assets and liabilities:

Level 1: Quoted prices in active markets for identical assets or liabilities. An active market for an asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2: Observable inputs other than Level 1 inputs. Examples of Level 2 inputs include quoted prices in active markets for similar assets or liabilities and quoted prices for identical assets or liabilities in markets that are not active.

Level 3: Unobservable inputs which are supported by little or no market activity and which are significant to the fair value of the assets or liabilities.

The following table presents information about the Company's assets that are measured at fair value on a recurring basis as of June 30, 2019 and September 30, 2018 and indicates the fair value hierarchy of the valuation inputs the Company utilized to determine such fair value:

Description:	Level	June 30, 2019	September 30, 2018
Assets:			
Cash and marketable securities held in Trust Account	1	\$ 77,838,232	\$ 144,964,309

### 8. NOTES PAYABLE TO FOUNDERS

On March 6, 2019, as part of the Initial Extension, the Company issued four unsecured promissory notes to the Founders in the aggregate principal amount of \$1,437,500, representing \$0.10 per public share. The funds have been deposited into the Trust Account. As a result, the period of time the Company has to consummate its Business Combination was extended by three months to June 12, 2019.

The promissory notes bear no interest and are repayable in full upon the consummation of the Company's previously announced Business Combination.

As part of the Second Extension, increasing the period of time the Company has to consummate its Business Combination by another six months to December 12, 2019, the Company issued the Second Extension Notes in the aggregate principal amount of \$240,000 to the Founders.

Also included in Notes Payable to Founders on the condensed balance sheet as of June 30, 2019 are \$396,599 from the Company's Founders to be held for use as Second Extension Notes and Working Capital Notes, as discussed in Note 9 below.

## 9. SUBSEQUENT EVENTS

### *Second Extension Additional Contribution, Notes Cancellation and Cumulative Notes Reissuance*

On July 10, 2019, in connection with the second monthly Contribution, the Founders deposited an additional aggregate \$240,000 into the Trust Account, and the Company cancelled the Initial Extension Notes dated June 10, 2019, in the amount of \$240,000 in the aggregate, and reissued each of the Second Extension Notes to include the aggregate of both the first and second monthly Contribution amounts for each payee, totaling \$480,000.

Additionally, on July 10, 2019, in connection with the second monthly Contribution, an additional aggregate \$64,932 of working capital was loaned to the Company by the Founders, and as a result the Company cancelled the original Working Capital Notes dated June 10, 2019 in the amount of \$91,667 and reissued the Working Capital Notes to include the aggregate of both the first and second working capital loans to the Company for each payee in the total amount of \$156,599.

The Second Extension Notes and Working Capital Notes bear no interest and are repayable in full upon the consummation of the Kaleyra business combination.

### *Preliminary Business Combination Proxy Statement*

On July 31, 2019, the Company filed a Preliminary Proxy Statement with the SEC to invite stockholders to vote on the Business Combination outlined above in Note 1 between the Company and Kaleyra.

## Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

References in this report (the “Quarterly Report”) to “we,” “us,” “our” or the “Company” refer to GigCapital, Inc. References to our “management” or our “management team” refer to our officers and directors, references to the “Sponsor” refer to GigAcquisitions, LLC, and references to the “Founders” refer to the Sponsor and three additional investors. The following discussion and analysis of the Company’s financial condition and results of operations should be read in conjunction with the condensed financial statements and the notes thereto contained elsewhere in this Quarterly Report. Certain information contained in the discussion and analysis set forth below includes forward-looking statements that involve risks and uncertainties.

### Special Note Regarding Forward-Looking Statements

This Quarterly Report includes “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Exchange Act that are not historical facts, and involve risks and uncertainties that could cause actual results to differ materially from those expected and projected. All statements, other than statements of historical fact included in this Quarterly Report including, without limitation, statements in this “Management’s Discussion and Analysis of Financial Condition and Results of Operations” regarding the Company’s financial position, business strategy and the plans and objectives of management for future operations, are forward-looking statements. Words such as “expect,” “believe,” “anticipate,” “intend,” “estimate,” “seek,” “may,” “might,” “plan,” “possible,” “potential,” “should,” “would” and similar words and expressions are intended to identify such forward-looking statements. Such forward-looking statements relate to future events or future performance, but reflect management’s current beliefs, based on information currently available. A number of factors could cause actual events, performance or results to differ materially from the events, performance and results discussed in the forward-looking statements. For information identifying important factors that could cause actual results to differ materially from those anticipated in the forward-looking statements, please refer to the Risk Factors section of the Company’s final prospectus for our initial public offering filed with the U.S. Securities and Exchange Commission (the “SEC”). The Company’s securities filings can be accessed on the EDGAR section of the SEC’s website at [www.sec.gov](http://www.sec.gov). Except as expressly required by applicable securities law, the Company disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise.

### Overview

We are a blank check company incorporated on October 9, 2017 in the State of Delaware formed for the purpose of entering into a merger, a share exchange, asset acquisition, stock purchase, recapitalization, reorganization or similar business combination with one or more businesses (the “Business Combination”). We intend to effectuate our initial Business Combination using cash from the proceeds from the sale of units (the “Units”) in our initial public offering (the “Offering”) and the sale of the units (the “Private Placement Units”) to our Founders which occurred simultaneously with the completion of the Offering (the “Private Placement”), our common equity or any preferred equity that we may create in accordance with the terms of our charter documents, debt, or a combination of cash, common or preferred equity and debt. The Units sold in the Offering each consisted of one share of common stock, three-fourths (3/4) of a warrant to purchase one share of common stock, and one-tenth (1/10) of a right to receive one share of common stock upon consummation of a Business Combination. The Private Placement Units were substantially similar to the Units sold in the Offering, but for certain differences in the warrants included in each of them. For clarity, the warrants included in the Units are referred to herein as the “public warrants”, and the warrants included in the Private Placement Units are referred to herein as the “private placement warrants”. As set forth above in *Note 1 - DESCRIPTION OF ORGANIZATION AND BUSINESS OPERATIONS – Business Combination*, on February 22, 2019, the Company entered into a stock purchase agreement for its initial Business Combination. The issuance of additional shares of common stock or the creation of one or more classes of preferred stock during our initial Business Combination:

- may significantly dilute the equity interest of existing stockholders, who would not have pre-emption rights in respect of any such issue;
- could cause a change in control if a substantial number of shares of common stock are issued, which may affect, among other things, our ability to use our net operating loss carry forwards, if any, and could result in the resignation or removal of our present officers and directors;
- may have the effect of delaying or preventing a change of control of us by diluting the share ownership or voting rights of a person seeking to obtain control of us; and
- may adversely affect prevailing market prices for shares of our common stock, and/or for our public warrants, rights or Units.

Similarly, if we issue debt securities or otherwise incur significant indebtedness, including the potential issuance of the Convertible Notes as part of the consideration for our initial Business Combination, it could result in:

- a decrease in the prevailing market prices for shares of our common stock, and/or for our public warrants, rights or Units;
- default and foreclosure on our assets if our operating revenues after our initial Business Combination are insufficient to repay our debt obligations;
- acceleration of our obligations to repay the indebtedness even if we make all principal and interest payments when due if we breach certain covenants that require the maintenance of certain financial ratios or reserves without a waiver or renegotiation of that covenant;
- our immediate payment of all principal and accrued interest, if any, if the debt is payable on demand;
- our inability to obtain necessary additional financing if any document governing such debt contains covenants restricting our ability to obtain such financing while the debt security is outstanding;
- our inability to pay dividends on shares of our common stock;
- using a substantial portion of our cash flow to pay principal and interest on our debt, which would reduce the funds available for dividends on our common stock if declared, expenses, capital expenditures, acquisitions and other general corporate purposes;
- limitations on our flexibility in planning for and reacting to changes in our business and in the industry in which we operate;
- increased vulnerability to adverse changes in general economic, industry and competitive conditions and adverse changes in government regulation; and
- limitations on our ability to borrow additional amounts for expenses, capital expenditures, acquisitions, debt service requirements, execution of our strategy and other purposes and other disadvantages compared to our competitors who have less debt.

We expect to incur significant costs in the pursuit of our acquisition plans. We cannot assure you that our plans to raise capital or to complete our initial Business Combination will be successful.

### **Results of Operations**

We have neither engaged in any operations nor generated any revenues to date. For the period from October 9, 2017 (Date of Inception) through June 30, 2019, our only activities have been organizational activities and activities to identify a target business for our initial Business Combination. We do not expect to generate any operating revenues until after completion of our initial Business Combination. We expect to generate non-operating income in the form of interest income on cash and marketable securities held in the trust account at JP Morgan Chase Bank, N.A. in New York, New York with Continental Stock Transfer & Trust Company acting as trustee (the "Trust Account"), which was funded after our initial public offering of Units consisting of one share of common stock, three-quarters of one warrant to purchase one share of common stock, and one right to receive one-tenth of one share of common stock upon our completion of an initial Business Combination to hold an amount of cash and marketable securities equal to that raised in the Offering, including such proceeds from the exercise of the underwriters' over-allotment option. There has been no significant change in our financial or trading position and no material adverse change has occurred since the date of our audited financial statements. We expect to incur increased expenses as a result of being a public company (for legal, financial reporting, accounting and auditing compliance), as well as for due diligence expenses.

For the three and nine months ended June 30, 2019, we incurred a net loss of \$114,030 and \$525,405, respectively, which consisted of operating expenses of \$619,588 and \$2,136,744, respectively, and a provision for income taxes of \$203,018 and \$649,315, respectively, partially offset by \$708,576 and \$2,260,654, respectively, of interest income on marketable securities held in the Trust Account.

For the three months ended June 30, 2018, we had net income of \$103,999 which consisted of interest income on marketable securities held in the Trust Account of \$589,769, which was partially offset by operating expenses of \$290,614 and a provision for income taxes of \$195,156. For the period from October 9, 2017 (date of inception) through June 30, 2018, we had a net loss of \$19,949 which consisted of operating costs of \$785,461 and a provision for income taxes of \$378,583, which was partially offset by interest income on marketable securities held in the Trust Account of \$1,144,095.

Our business activities for the three and nine months ended June 30, 2019, and for the three months ended June 30, 2019, as well as for the period from October 9, 2017 (date of inception) through June 30, 2018, consisted solely of identifying and evaluating a potential initial Business Combination.

### **Liquidity and Capital Resources**

On December 12, 2017, we consummated the initial closing of the Offering with the delivery of 12,500,000 Units at a price of \$10.00 per unit, generating gross proceeds of \$125,000,000. Simultaneously with the initial closing of the Offering, we consummated the initial closing of the Private Placement with the sale of 489,500 Private Placement Units at a price of \$10.00 per unit, generating gross proceeds of \$4,895,000.

On January 9, 2018, in connection with the underwriters' exercise in full of their option to purchase an additional 1,875,000 Units solely to cover over-allotments, if any (the "over-allotment option"), we consummated the sale of an additional 1,875,000 Units at a price of \$10.00 per unit, generating gross proceeds of \$18,750,000. Simultaneously with the closing of the sale of such additional Units, the Company consummated the second closing of the Private Placement resulting in the sale of an additional 8,756 Private Placement Units at a price of \$10.00 per unit, generating gross proceeds of \$87,560.

Following the initial and second closings of the Offering and the Private Placement, a total of \$143,750,000 was placed in the Trust Account. We incurred \$3,252,059 in Offering related costs, including \$2,587,560 of underwriting fees and \$664,499 of other costs.

As of June 30, 2019, we held cash and marketable securities in the amount of \$77,838,232 in the Trust Account and \$155,566 of interest receivable. The marketable securities consisted of U.S. money market funds. Interest income earned from the funds held in the Trust Account may be used by us to pay taxes. For the three and nine months ended June 30, 2019, we withdrew \$311,758 and \$949,462, respectively, from the interest earned on the Trust Account to pay tax obligations.

For the nine months ended June 30, 2019, cash used in operating activities was \$1,614,084, consisting of a net loss of \$525,405, interest earned on marketable securities held in Trust Account of \$2,105,087, \$155,566 of interest receivable on cash and marketable securities held in Trust Account, partially offset by changes in operating assets and liabilities of \$1,171,974.

As of June 30, 2018, we held cash and marketable securities in the amount of \$144,710,418 (including \$960,418 of interest receivable) in the Trust Account. The marketable securities consisted of U.S. money market funds. Interest income earned from the funds held in the Trust Account may be used by us to pay taxes. Through June 30, 2018, we withdrew \$183,677 from the interest earned on the Trust Account to pay federal and state income tax obligations.

For the period October 9, 2017 (date of inception) through June 30, 2018, cash used in operating activities was \$1,053,939, consisting of a net loss of \$19,949, changes in operating assets and liabilities of \$110,105, and interest earned on marketable securities held in the Trust Account of \$1,144,095.

We intend to use substantially all of the funds held in the Trust Account, including any amounts representing interest earned on the Trust Account (which interest shall be net of taxes payable by us), to complete our initial Business Combination as set forth above and to pay our expenses relating thereto. To the extent that our capital stock is used in whole or in part as consideration to effect our initial Business Combination, the remaining proceeds held in the Trust Account as well as any other net proceeds not expended will be used as working capital to finance the operations of the target business or businesses. Such working capital funds could be used in a variety of ways including continuing or expanding the target business' operations, for strategic acquisitions and for marketing, research and development of existing or new products. Such funds could also be used to repay any operating expenses or finders' fees which we had incurred prior to the completion of our initial Business Combination if the funds held outside of the Trust Account are insufficient to cover such expenses.

As of June 30, 2019, we had cash of \$329,245 held outside the Trust Account. We intend to raise additional funds to ensure the proceeds not held in the Trust Account will be sufficient to allow us to operate for at least 24 months from the closing date of the Offering as described above in the Business Combination section, assuming that a business combination is not consummated during that time. Over the remainder of this time period, we intend to use these funds primarily for consummating the initial Business Combination.

If our estimates of the costs of undertaking in-depth due diligence and negotiating our initial Business Combination are less than the actual amount necessary to do so, we may have insufficient funds available to operate our business prior to our initial Business Combination. Moreover, we may need to obtain additional financing either to consummate our initial Business Combination or because we become obligated to redeem a significant number of our public shares upon consummation of our initial Business Combination, in which case we may issue additional securities or incur debt in connection with such Business Combination. In order to finance operating and/or transaction costs in connection with a Business Combination, our Sponsor, executive officers, directors, or their affiliates may, but are not obligated to, loan us funds. In the event that our initial Business Combination does not close, we may use a portion of the working capital held outside the Trust Account to repay such loaned amounts but no proceeds from our Trust Account would be used for such repayment. Up to \$1,500,000 of such loans may be convertible into units of the post-Business Combination entity at a price of \$10.00 per unit at the option of the lender. The units would be identical to the Private Placement Units.

Following our initial Business Combination, if cash on hand is insufficient, we may need to obtain additional financing in order to meet our obligations.

#### **Off-Balance Sheet Arrangements**

As of June 30, 2019, we have not entered into any off-balance sheet financing arrangements. We do not participate in transactions that create relationships with unconsolidated entities or financial partnerships, often referred to as variable interest entities, which would have been established for the purpose of facilitating off-balance sheet arrangements. We have not entered into any off-balance sheet financing arrangements, established any special purpose entities, guaranteed any debt or commitments of other entities, or purchased any non-financial assets.

#### **Contractual Obligations**

As of June 30, 2019, we do not have any long-term debt, capital lease obligations, operating lease obligations or long-term liabilities, other than an agreement to pay our Sponsor a monthly fee of \$20,000 for office space, administrative services and secretarial support. We began incurring these fees on December 8, 2017 and will continue to incur these fees monthly until the earlier of the completion of the Business Combination or the liquidation of the Company.

#### **Critical Accounting Policies**

The preparation of financial statements and related disclosures in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and income and expenses during the periods reported. Actual results could materially differ from those estimates. The Company has identified the following critical accounting policies:

##### *Emerging Growth Company*

Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when an accounting standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, will adopt the new or revised accounting standard at the time private companies adopt the new or revised standard.

### Net Loss Per Common Share

Net loss per common share is computed by dividing net loss by the weighted-average number of common shares outstanding for the period. The Company applies the two-class method in calculating the net loss per common share. Shares of common stock subject to possible redemption as of June 30, 2019 and 2018, have been excluded from the calculation of the basic net loss per share since such shares, if redeemed, only participate in their pro rata share of the Trust Account earnings. The Company has not considered the effect of 1) warrants sold in the Offering and Private Placement to purchase an aggregate of 11,154,942 shares of common stock since the exercise of the warrants is contingent upon future events, as of June 30, 2019 and 2018, 2) rights sold in the Offering and Private Placement that convert into 1,487,326 shares of common stock since the conversion of the rights is contingent upon future events, as of June 30, 2019 and 2018 and (3) the 60,000 shares of common stock underlying restricted stock awards that are still subject to forfeiture as of June 30, 2019 and 2018. Since the Company was in an adjusted net loss position during the periods presented within, diluted net loss per common share is the same as basic net loss per common share for all periods presented.

In accordance with the two-class method, the Company's net income (loss) is adjusted to remove net income that is attributable to common stock subject to redemption, as these shares only participate in the income of the trust account and not the losses of the Company. Accordingly, net loss per common share, basic and diluted, is calculated as follows:

	For the Three Months Ended June 30,		For the Nine Months Ended June 30,	Period from October 9, 2017 (Date of Inception) through June 30,
	2019	2018	2019	2018
Net income (loss)	\$ (114,030)	\$ 103,999	\$ (525,405)	\$ (19,949)
Less: net income attributable to common stock subject to redemption	(314,488)	(307,146)	(1,002,351)	(595,835)
Adjusted net loss	\$ (428,518)	\$ (203,147)	\$ (1,527,756)	\$ (615,784)
Weighted-average common shares outstanding, basic and diluted	4,238,180	4,033,329	4,153,252	4,044,483
Net loss per share common share, basic and diluted	\$ (0.10)	\$ (0.05)	\$ (0.37)	\$ (0.15)

### Common Stock subject to possible redemption

We account for our common stock subject to possible conversion in accordance with the guidance in Accounting Standards Codification ("ASC") Topic 480 "Distinguishing Liabilities from Equity." Common stock subject to mandatory redemption (if any) is classified as a liability instrument and is measured at fair value. Conditionally redeemable common stock (including common stock that features redemption rights that are either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within our control) is classified as temporary equity. At all other times, common stock is classified as stockholders' equity. Our common stock features certain redemption rights that are considered to be outside of our control and subject to occurrence of uncertain future events. Accordingly, as of June 30, 2019 and September 30, 2018, the common stock subject to possible redemption is presented as temporary equity, outside of the stockholders' equity section of our condensed balance sheets.

### Recent Accounting Pronouncements

We do not believe that any recently issued, but not yet effective, accounting pronouncements, if currently adopted, would have a material effect on our condensed financial statements.

### Item 3. Quantitative and Qualitative Disclosures about Market Risk

To date, our efforts have been limited to organizational activities and activities relating to the Offering and the identification and evaluation of a potential initial Business Combination. We have neither engaged in any operations nor generated any revenues. As of June 30, 2019, the net proceeds from our Offering held in the Trust Account were comprised entirely of money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act, which invest solely in United States Treasuries. Due to the short-term nature of the money market fund's investments, we do not believe that there will be an associated material exposure to interest rate risk.

As of June 30, 2019, \$77,838,232 was held in the trust account for the purposes of consummating an initial Business Combination.

#### **Item 4. Controls and Procedures**

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

##### *Evaluation of Disclosure Controls and Procedures*

As required by Rules 13a-15 and 15d-15 under the Exchange Act, our Chief Executive Officer and Chief Financial Officer carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as of June 30, 2019. Based upon their evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) were effective.

##### *Changes in Internal Control over Financial Reporting*

During our most recently completed fiscal quarter June 30, 2019, there has been no change in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

## PART II — OTHER INFORMATION

### Item 1. Legal Proceedings

None.

### Item 1A. Risk Factors

Factors that could cause our actual results to differ materially from those in this Quarterly Report are any of the risks described in our final prospectus for our Offering which was filed with the SEC on December 11, 2017. As of the date of this Quarterly Report on Form 10-Q, there have been no material changes to the risk factors disclosed in our Annual Report on Form 10-K for the period ended September 30, 2018 filed with the SEC. Any of these factors could result in a significant or material adverse effect on our results of operations or financial condition. Additional risk factors not presently known to us or that we currently deem immaterial may also impair our business or results of operations. We may disclose changes to such risk factors or disclose additional risk factors from time to time in our future filings with the SEC.

### Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On December 12, 2017, we consummated the initial closing of the Offering, wherein we sold 12,500,000 Units. The Units sold in the Offering each consisted of one share of common stock, three-fourths (3/4) of a warrant to purchase one share of common stock, and one-tenth (1/10) of a right to receive one share of common stock upon or consummation of a Business Combination. On January 9, 2018, upon the underwriters' election to fully exercise their over-allotment option in the Offering, we consummated a second and final closing of the Offering, wherein we sold 1,875,000 Units. The Units in the Offering were sold at an offering price of \$10.00 per unit, generating total gross proceeds from the initial and second closings of the Offering in the aggregate amount of \$143,750,000. The Units sold in the Offering were registered under the Securities Act on registration statements on Form S-1 (No. 333-221581 and 333-221948), which were declared effective by the SEC on December 7, 2017, and December 8, 2017, respectively. The underwriters for the Offering were Cowen and Company, LLC and Chardan Capital Markets, LLC.

We paid a total of \$2,587,560 in underwriting discounts and commissions from the initial and second closings of the Offering, and other costs and expenses related to the initial and second closings of the Offering estimated to be approximately \$625,000 as of January 9, 2018 from the proceeds of the Offering. After deducting the underwriting discounts and commissions and the estimated offering expenses, the total net proceeds from the Offering and the Private Placement was \$145,520,000, of which \$143,750,000 (or \$10.00 per unit sold in the Offering) was placed in a trust account at JP Morgan Chase Bank, N.A. in New York, New York with Continental Stock Transfer & Trust Company acting as trustee (the "Trust Account"). Using a portion of the net proceeds of the Offering that was not placed in the Trust Account, we repaid a promissory note issued to our Sponsor, which bore the outstanding principal amount of \$50,536 when we repaid it upon the initial closing of the Offering. The proceeds held in the Trust Account may be invested by the trustee only in U.S. government treasury bills with a maturity of 180 days or less or in money market funds investing solely in U.S. government treasury obligations and meeting certain conditions under Rule 2a-7 under the Investment Company Act.

As of June 30, 2019, \$329,425 was held outside the Trust Account. Funds held outside the Trust Account will be used to fund our operating expenses.

### Item 3. Defaults Upon Senior Securities

Not applicable.

### Item 4. Mine Safety Disclosures

Not applicable.

### Item 5. Other Information

Not applicable.

Title: Vice President and Chief Financial Officer  
(Principal Financial and Accounting Officer)

**CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER**

Pursuant to Rule 13a-14(a) and Rule 15d-14(a) under the  
Securities Exchange Act of 1934  
(Section 302 of the Sarbanes-Oxley Act of 2002)

I, Avi S. Katz, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of GigCapital, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
  - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b) [omitted pursuant to the transition period exemption for newly public companies.]
  - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
